

Operator Overloading

1.Plus

main.cpp	   Share	Run	Output
<pre>1 #include <iostream> 2 using namespace std; 3 4 class Number { 5 public: 6 int value; 7 8 Number(int v) { 9 value = v; 10 } 11 12 Number operator+(Number n) { 13 return Number(value + n.value); 14 } 15 }; 16 17 int main() { 18 Number n1(10), n2(20); 19 20 Number n3 = n1 + n2; 21 22 cout << "Sum = " << n3.value; 23 24 return 0; 25 }</pre>			<pre>Sum = 30 === Code Execution Successful ===</pre>

2.Increment

main.cpp	Run	Output
<pre>1 #include <iostream> 2 using namespace std; 3 4 class Number { 5 public: 6 int value; 7 8 Number(int v) { 9 value = v; 10 } 11 12 void operator++() { 13 value++; 14 } 15 }; 16 17 int main() { 18 Number n(10); 19 20 ++n; 21 22 cout << "Value = " << n.value; 23 24 return 0; 25 }</pre>		<pre>Value = 11 === Code Execution Successful ===</pre>

3.Equal

main.cpp	Run	Output
<pre>1 #include <iostream> 2 using namespace std; 3 4 class Number { 5 public: 6 int value; 7 8 Number(int v) { 9 value = v; 10 } 11 12 bool operator==(Number n) { 13 return value == n.value; 14 } 15 }; 16 17 int main() { 18 Number n1(10), n2(10); 19 20 if (n1 == n2) 21 cout << "Equal"; 22 else 23 cout << "Not Equal"; 24 25 return 0; 26 }</pre>		<pre>Equal === Code Execution Successful ===</pre>

4.Plus Equal

main.cpp	Output
<pre>1 #include <iostream> 2 using namespace std; 3 4+ class Number { 5 public: 6 int value; 7 8+ Number(int v) { 9 value = v; 10 } 11 12+ void operator+=(Number n) { 13 value += n.value; 14 } 15 }; 16 17+ int main() { 18 Number n1(10), n2(20); 19 20 n1 += n2; 21 22 cout << "Value = " << n1.value; 23 24 return 0; 25 }</pre>	<pre>Value = 30 === Code Execution Successful ===</pre>

5.Add

main.cpp	Output
<pre>1 #include <iostream> 2 using namespace std; 3 4+ class Add { 5 public: 6 int num; 7 8+ Add(int n) { 9 num = n; 10 } 11 12+ Add operator+(Add a) { 13 return Add(num + a.num); 14 } 15 }; 16 17+ int main() { 18 Add a1(5), a2(7); 19 20 Add a3 = a1 + a2; 21 22 cout << "Addition = " << a3.num; 23 24 return 0; 25 }</pre>	<pre>Addition = 12 === Code Execution Successful ===</pre>
